UI-Design & Developement

æternity

The aeternity blockchain is about transparent governance and global scalability. With their new governance app they enabled their users to create polls, vote and delegate stake.
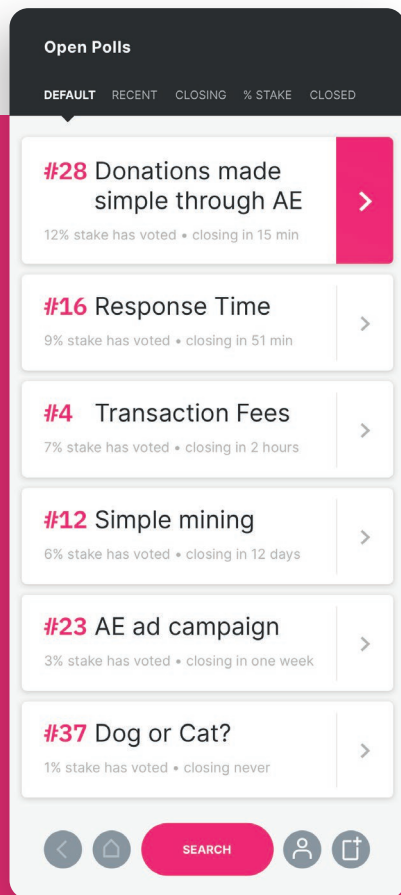

Workfields:
UI-Design, Art Direction, Developement

Task

Design an easy to use app interface within the aeternity design framework. Give guidance and direction to the user. Keep it simple, stay in budget.

<   ⌂   SEARCH   ⊙   ⊡

**First app start only
CTA button** to discover
the most relevant and
recent poll.

Compact poll boxes
with only the relevant
information.

**Navigation bar** with
prominent search button to
emphasize exploration.

+

Account overview for fast
access and transparency.

Title and description
with URL for further
information about the poll.

Solution

A simple two-tone color palette
and a minimalistic set of shapes
allowed me to stay on time (two
weeks) and budget.

Smart polls with
vote indicator and option
to expand for more info.
